Product Description

Product Description:

The PU Lab Antistatic Chairs are a must-have for any ESD lab setting. These chairs are specifically designed to meet the needs of environments where electrostatic discharge (ESD) protection is crucial. With their sleek black color, these chairs not only look professional but also provide the necessary functionality for a productive workspace.

One of the key features of the PU Lab Antistatic Chairs is the inclusion of a footrest. This footrest provides added comfort during long hours of work, allowing users to maintain proper posture and reduce fatigue. The footrest is adjustable, ensuring that users of all heights can find a comfortable position while working.

Another important attribute of these chairs is their antistatic properties. The PU Lab Antistatic Chairs are designed to dissipate static electricity, helping to protect sensitive equipment and components in the lab environment. This feature is essential for preventing damage to electronic devices and ensuring the safety of personnel.

In addition to being antistatic, these chairs are also highly durable. Made from high-quality materials, the PU Lab Antistatic Chairs are built to withstand the rigors of daily use in a lab setting. This durability ensures that your investment in these chairs will provide long-lasting value for your lab.

The size of the PU Lab Antistatic Chairs is adjustable, making them suitable for a wide range of users. Whether you are tall or short, you can easily adjust the height of the chair to find the most comfortable position for your work. This versatility makes these chairs ideal for shared workspaces or multi-user environments.

Overall, the PU Lab Antistatic Chairs are the perfect choice for any ESD lab setting. With their black color, footrest, antistatic properties, adjustable size, and durability, these chairs offer the ideal combination of comfort, functionality, and protection. Invest in the PU Lab Antistatic Chairs today to create a safe and efficient work environment for your lab personnel.

Features:

Product Name: PU Lab Antistatic Chairs

Footrest: Yes

Weight Capacity: 300 Lbs

Material: PU Leather

Swivel: Yes

Model: PU-AC-001

Technical Parameters:

Swivel	Yes

Material	PU Leather
Footrest	Yes
Ergonomic Design	Yes
Adjustable Height	Yes
Model	PU-AC-001
Color	Black
Armrests	Yes
Durable	Yes

Applications:

The PU Lab Antistatic Chair, model PU-AC-001, is a versatile seating solution suitable for a wide range of product application occasions and scenarios. With its place of origin being China, this chair is designed to meet the needs of various environments where anti-static properties are essential.

One of the key attributes of the PU Lab Antistatic Chair is its durability, making it a reliable choice for long-term use in laboratories, cleanrooms, manufacturing facilities, and other industrial settings. The chair is equipped with caster wheels, allowing for easy mobility and maneuverability within a workspace.

Another important feature of this chair is its adjustable height, providing users with the flexibility to customize the chair to their preferred seating position. This adjustability makes the chair suitable for individuals of different heights and ensures ergonomic comfort during prolonged periods of sitting.

The sleek black color of the PU Lab Antistatic Chair not only adds a touch of sophistication to any workspace but also complements various interior design styles. Whether in a modern laboratory setting or a traditional manufacturing facility, this chair seamlessly blends in while providing the necessary anti-static functionality.

The PU Lab Antistatic Chair is specifically designed for use in environments where electrostatic discharge (ESD) protection is crucial. Laboratories, testing facilities, and electronics manufacturing plants are just a few examples of the product application occasions where this chair excels. Its anti-static properties help prevent damage to sensitive electronic components and equipment, making it an essential piece of furniture for ESD-sensitive environments.

Customization:

Enhance your experience with our Anti Static Lab Chair by taking advantage of our Product Customization Services. Originating from China, this chair is designed with easy-to-clean PU Leather material for your convenience. The ergonomic design ensures maximum comfort and support, while the caster wheels allow for easy mobility. Additionally, the inclusion of armrests provides extra comfort and stability. Elevate your workspace with our customizable ESD Lab Chairs today!

Support and Services:

Our PU Lab Antistatic Chairs come with comprehensive product technical support and services to ensure the highest level of customer satisfaction. Our team of experts is available to assist with any inquiries related to the product specifications, installation, maintenance, and troubleshooting. We also offer training sessions to familiarize users with the features and proper usage of the chairs. Additionally, our service team is equipped to provide on-site support and repairs if needed. Rest assured that we are committed to delivering exceptional support to meet your needs.

Packing and Shipping:

Product Packaging:

The PU Lab Antistatic Chairs are carefully packaged to ensure they arrive to you in perfect condition. Each chair is wrapped in protective material and placed in a sturdy cardboard box to prevent any damage during transit.

Shipping:

Upon placing your order, the PU Lab Antistatic Chairs will be shipped out within 1-2 business days. We partner with reliable shipping carriers to ensure prompt delivery to your doorstep. You will receive a tracking number to monitor the status of your shipment.
