Basic Information

- Place of Origin: China

Product Specification

- Ergonomic Design: Yes
- Adjustable Height: Yes
- Swivel: Yes
- Weight Capacity: 300 Lbs
- Durable: Yes
- Easy To Clean: Yes
- Armrests: Yes
- Antistatic: Yes
- Highlight: **300 Lbs Weight Capacity PU Lab Antistatic Chair**
, Model PU-AC-001 ESD Lab Chair,
Armrests Included Anti Static Lab Chair

Product Description

Product Description:

The PU Lab Antistatic Chair is a versatile and high-quality seating solution designed for laboratory environments where electrostatic discharge (ESD) protection is crucial. This durable and reliable chair is specifically engineered to provide comfort, support, and safety in settings where static electricity can cause damage to sensitive equipment.

With its ergonomic design, the Anti Static Lab Chair promotes proper posture and reduces the risk of strain or discomfort during long hours of work. The chair is built to support a weight capacity of up to 300 lbs, ensuring stability and sturdiness for users of various sizes. The model PU-AC-001 is equipped with an adjustable size feature, allowing users to customize the chair to fit their individual preferences and workspace requirements. This flexibility ensures a comfortable and ergonomic seating experience for all users, enhancing productivity and focus in the laboratory setting.

In addition, the PU Lab Antistatic Chair is designed with a swivel function, enabling users to easily rotate and access different areas of their workstations without straining or overreaching. This feature promotes efficiency and convenience, allowing users to move freely and carry out tasks with ease.

Whether used in research facilities, testing laboratories, or cleanroom environments, the ESD Lab Chair provides essential protection against electrostatic discharge, safeguarding sensitive equipment and ensuring a safe working environment for personnel. Its anti-static properties make it an ideal choice for industries where static control is critical.

Investing in the PU Lab Antistatic Chair not only enhances the comfort and well-being of laboratory personnel but also contributes to the overall safety and efficiency of the work environment. With its combination of ergonomic design, weight capacity, adjustable size, and swivel function, this chair is a reliable and practical choice for any laboratory setting requiring ESD protection.

Features:

Product Name: PU Lab Antistatic Chairs

Caster Wheels: Yes

Swivel: Yes

Size: Adjustable

Weight Capacity: 300 Lbs

Material: PU Leather

Technical Parameters:

Weight Capacity	300 Lbs
Color	Black
Adjustable Height	Yes
Size	Adjustable
Swivel	Yes
Easy To Clean	Yes
Model	PU-AC-001
Material	PU Leather
Durable	Yes
Antistatic	Yes

Applications:

The PU Lab Antistatic Chair, model PU-AC-001, is a versatile seating solution designed for various product application occasions and scenarios. Manufactured in China, this chair is specifically tailored for use in ESD lab environments where antistatic properties are crucial. With its antistatic feature, the PU Lab Antistatic Chair is perfect for workspaces where electrostatic discharge (ESD) protection is necessary. The chair's ability to prevent static electricity build-up ensures a safe working environment for delicate electronic components and devices.

Furthermore, the PU Lab Antistatic Chair is not only functional but also easy to clean, making it ideal for environments that require regular maintenance and hygiene. Its durable construction guarantees long-lasting performance, providing a reliable seating option for various laboratory settings.

The sleek black color of the PU Lab Antistatic Chair adds a professional touch to any workspace, complementing different interior designs and styles. Whether used in research facilities, testing laboratories, or manufacturing plants, this chair delivers both practicality and aesthetic appeal.

From conducting experiments to performing intricate tasks, the PU Lab Antistatic Chair is a staple in ESD lab environments. Its combination of antistatic capabilities, durability, and ease of cleaning make it a valuable asset for professionals in need of reliable seating solutions.

Customization:

Customize your ESD Lab Chairs with our Product Customization Services:

Place of Origin: China

Durable: Yes

Model: PU-AC-001

Easy To Clean: Yes

Adjustable Height: Yes

Caster Wheels: Yes

Support and Services:

Our Product Technical Support team is dedicated to providing assistance with any questions or issues related to the PU Lab Antistatic Chairs. Whether you need help with assembly, maintenance, or troubleshooting, our team is here to help.

In addition to technical support, we also offer a range of services to ensure the optimal performance and longevity of your PU Lab Antistatic Chairs. These services may include on-site inspections, repair and maintenance programs, and customization options to meet your specific needs.

Packing and Shipping:

Product Packaging and Shipping for PU Lab Antistatic Chairs:

Our PU Lab Antistatic Chairs are carefully packaged to ensure safe delivery to our customers. Each chair is securely wrapped in protective material and placed in a sturdy cardboard box to prevent any damage during transit.

For shipping, we partner with reputable courier services to guarantee timely and efficient delivery to your doorstep. Once your order is processed, you will receive a tracking number to monitor the status of your shipment.

FAQ:

Q: Where are the PU Lab Antistatic Chairs manufactured?

A: The PU Lab Antistatic Chairs are manufactured in China.

Q: Are the PU Lab Antistatic Chairs suitable for use in laboratories?

A: Yes, these chairs are designed specifically for laboratory environments.

Q: Do the PU Lab Antistatic Chairs come with adjustable height features?

A: Yes, these chairs are equipped with adjustable height functionality for added convenience.

Q: Can the PU Lab Antistatic Chairs be used in cleanroom settings?

A: Yes, these chairs are suitable for use in cleanroom environments.

Q: Are the PU Lab Antistatic Chairs resistant to static electricity?

A: Yes, these chairs are antistatic, providing protection against static electricity buildup.
