- Highlight: **300 Lbs Weight Capacity PU Lab Antistatic Chair**
, Model PU-AC-001 ESD Lab Chair,
Ergonomic Design Anti-Static Laboratory Chair

Product Description

Product Description:

The PU Lab Antistatic Chairs are specially designed ESD lab chairs that provide a reliable and comfortable seating solution for various laboratory settings. These anti-static lab chairs are equipped with caster wheels, making them easy to move around the lab space while ensuring smooth mobility.

With a weight capacity of 300 lbs, the PU Lab Antistatic Chairs offer sturdy and durable seating for users of different sizes. The model PU-AC-001 is built to provide long-lasting support and stability, making it a practical choice for laboratories where reliability is essential. One of the key features of these ESD lab chairs is their easy-to-clean design, allowing for quick and hassle-free maintenance. This ensures that the lab environment remains clean and hygienic, promoting a productive and organized workspace for lab personnel. Designed with an ergonomic approach, the PU Lab Antistatic Chairs prioritize user comfort and support. The ergonomic design helps reduce strain and fatigue during long hours of work, allowing lab professionals to focus on their tasks without experiencing discomfort. Overall, the PU Lab Antistatic Chairs, also known as anti-static lab chairs, are a practical and efficient seating solution for laboratories that require reliable ESD seating options. With their caster wheels, weight capacity of 300 lbs, model PU-AC-001, easy-to-clean feature, and ergonomic design, these chairs offer a combination of functionality, durability, and comfort that are essential for a productive lab environment.

Features:

Product Name: PU Lab Antistatic Chairs

Easy To Clean: Yes

Swivel: Yes

Size: Adjustable

Durable: Yes

Model: PU-AC-001

Technical Parameters:

Caster Wheels	Yes
Durable	Yes
Color	Black
Footrest	Yes
Easy To Clean	Yes
Size	Adjustable
Ergonomic Design	Yes
Model	PU-AC-001
Antistatic	Yes
Adjustable Height	Yes

Applications:

The PU Lab Antistatic Chairs (Model: PU-AC-001) are versatile seating solutions that are perfect for a wide range of ESD lab environments. Designed and manufactured in China, these chairs offer a combination of functionality, comfort, and durability, making them ideal for various application occasions and scenarios.

Thanks to their adjustable height feature, these ESD lab chairs can easily accommodate users of different heights, ensuring optimal comfort and ergonomics during extended periods of use. The swivel function further enhances mobility and convenience, allowing users to move around their workstation with ease.

One of the key advantages of the PU Lab Antistatic Chairs is their anti-static properties, which make them suitable for use in environments where electrostatic discharge protection is crucial. With a weight capacity of 300 lbs, these chairs offer sturdy support for a wide range of users, making them a versatile seating option for various lab settings.

Additionally, these chairs are designed to be easy to clean, helping maintain a clean and hygienic working environment. The PU material used in the construction of these chairs is not only durable but also resistant to common lab chemicals, ensuring long-lasting performance.

Whether you are working in a research lab, electronics manufacturing facility, or any other ESD-sensitive environment, the PU Lab Antistatic Chairs provide a comfortable and reliable seating solution. Their adjustable height, swivel function, and anti-static properties make them a practical choice for anyone seeking ergonomic seating with ESD protection.

Customization:
