

Model PU-AC-001 Anti Static Lab Chair with 300 Lbs Weight Capacity and Ergonomic Design for ESD-Sensitive Environments

Our Product Introduction

Basic Information

- Place of Origin: China

Product Specification

- Model: PU-AC-001
- Antistatic: Yes
- Material: PU Leather
- Weight Capacity: 300 Lbs
- Ergonomic Design: Yes
- Size: Adjustable
- Swivel: Yes
- Adjustable Height: Yes
- Highlight: **Model PU-AC-001 Anti Static Lab Chair,
300 Lbs Weight Capacity ESD Lab Chair ,
Ergonomic Design PU Lab Antistatic Chair**

Product Description

Product Description:

Introducing the PU Lab Antistatic Chair, the perfect seating solution for ESD-sensitive environments. This top-of-the-line chair is designed to meet the specific needs of laboratories, research facilities, and other settings where electrostatic discharge (ESD) protection is crucial. Model: PU-AC-001

Constructed with high-quality PU leather, this Anti Static Lab Chair combines durability and comfort, making it suitable for long hours of use. The sleek design and black finish lend a professional look to any workspace, while the ergonomic shape ensures proper support for extended sitting periods.

One of the standout features of this chair is its armrests, providing additional comfort and support for users throughout the day. Whether conducting experiments, analyzing data, or performing intricate tasks, the armrests of the ESD Lab Chair offer a convenient place to rest arms and reduce fatigue.

Furthermore, the PU Lab Antistatic Chair is easy to clean, allowing for quick maintenance and upkeep in busy lab environments. Simply wipe down the chair with a damp cloth or mild cleaning solution to keep it looking fresh and professional.

Designed specifically for environments where static electricity control is essential, this Anti Static Lab Chair is equipped with antistatic properties to prevent the buildup of electric charge. By dissipating static electricity safely, the chair helps protect sensitive equipment and components from damage, ensuring a secure working environment.

Whether used in pharmaceutical labs, electronics manufacturing facilities, or research laboratories, the PU Lab Antistatic Chair offers a reliable seating solution that meets the stringent requirements of ESD-sensitive areas.

Overall, the PU Lab Antistatic Chair is a versatile and essential addition to any workspace where ESD protection is a priority. With its comfortable design, durable construction, and antistatic features, this chair provides the perfect blend of functionality and style for professionals in various industries.

Features:

Product Name: PU Lab Antistatic Chairs

Size: Adjustable

Swivel: Yes

Easy To Clean: Yes

Armrests: Yes

Color: Black

Technical Parameters:

Swivel	Yes
Ergonomic Design	Yes
Model	PU-AC-001
Size	Adjustable
Weight Capacity	300 Lbs
Armrests	Yes
Adjustable Height	Yes
Durable	Yes
Easy To Clean	Yes
Caster Wheels	Yes

Applications:

When it comes to choosing the right seating solution for ESD-sensitive environments, the PU Lab Antistatic Chairs from China are a top choice. These chairs are specifically designed for use in ESD (Electrostatic Discharge) labs, providing essential features to ensure a safe and efficient working environment.

The inclusion of a footrest in these chairs makes them ideal for long hours of work in ESD labs. The footrest offers added comfort and support, reducing strain on the legs and promoting better posture during extended periods of sitting.

With easy-to-clean surfaces, these ESD Lab Chairs are perfect for maintaining a clean and hygienic workspace. The smooth PU material allows for quick and effortless cleaning, ensuring that the chairs remain in pristine condition for a long time.

Equipped with caster wheels, these Anti Static Lab Chairs offer excellent mobility within the lab space. The smooth-rolling wheels make it easy to move around the workspace without the need for lifting or dragging the chair, enhancing productivity and efficiency.

Designed to withstand the rigors of daily use in ESD labs, these chairs are known for their durability. The high-quality materials and construction ensure that the chairs remain sturdy and reliable, even in demanding work environments.

Thanks to the swivel feature, these ESD Lab Chairs provide users with enhanced flexibility and maneuverability. The ability to rotate the chair 360 degrees allows for easy access to different areas of the workspace, promoting seamless workflow and convenient interaction with lab equipment.

Customization:

Customize your PU Lab Antistatic Chair to meet your specific needs with our Product Customization Services:

- Place of Origin: China
- Weight Capacity: 300 Lbs
- Swivel: Yes
- Durable: Yes
